**PMTCT-LR Quarterly Report
Quarter: Q3 - 2013**

Part 1: Information about ANC	Total 75 Sites
1. Blood Testing for Pregnant Women	
1. Number of ANC 1	83902
1.1 Number of ANC1 at ANC facilities	81468
1.2 Number of ANC1 at outreach	2434
2. Number of ANC 4	53955
3. Number of known HIV status during this pregnancy	470
3.1 Number of women presenting at ANC who already received an HIV-negative result during this pregnancy	368
3.2 Number of HIV(+) pregnant women referred from other services(public and private) to ANCs	103
4. Number of samples of pregnant women of unknown HIV status, sent to lab	66894
4.1 Number of samples HIV positive	74
4.2 Number of pregnant women who received their test results	61352
4.2.1 Number received HIV-positive results	62
5. Number of pregnant women who received rapid syphilis screening	36564
5.1 Number of screened positive(Rapid Test)	40
5.1.1 Number of PW screened positive referred for an RPR confirmatory test	31
5.1.1.1 Number of tested RPR positive	12
5.1.1.1.1 Number of PW who started syphilis treatment	11
6. Number of pregnant women tested for anemia	8560
6.1 Number of HIV positive PW tested for anemia	6
7. Number of pregnant women tested for proteinuria	13519
7.1 Number of HIV positive PW tested for proteinuria	21
8. Number of pregnant women tested for glucose	12980
8.1 Number of HIV positive PW tested for glucose	22
2. Blood Testing of Partners/Husband of PW at ANC services	
9. Number of partners/husbands of PWs tested for HIV	16450
9.1 Number of male partners/husbands received results	15121
9.1.1 Number of tested HIV positive	27
10. Number of male partners/husbands of HIV-infected PWs tested for HIV	17
10.1 Number of who received results	84
10.1.1 Number of tested HIV positive	5

3. Blood Testing for General Population	
11. Number of TB patients tested for HIV (sample refer to lab)	4675
12. Number of TB patients received their test results	4442
12.1 Number of tested positive	17
13. Number of STD patients tested for HIV (sample refer to lab)	1064
14. Number of STD patients received their test results	980
14.1 Number of tested positive	2
15. Number of other clients tested for HIV (sample refer to lab)	17971
16. Number of other clients received their test results	17606
16.1 Number of tested positive	151
4. Birth Spacing	
17. Number of HIV-infected women received one modern contraceptive method (current users)	322
17.1 Number of HIV-infected mothers who start a modern contraceptive method at 6 weeks after birth	14
Part 2: Delivery and Post Partum Care	
1. Delivery Treatment	
1. Number of delivery mothers at health facilities	50684
1.1 Number of delivery mothers with known HIV status	42165
1.1.1 Number of known HIV positive	105
1.1.1.1 Number of HIV positive mothers at delivery who reported receiving ART for their own health	81
1.1.1.2 Number of HIV positive mothers at delivery who reported receiving triple ART prophylaxis during pregnancy	20
1.1.1.3 Number of positive mothers at delivery who received ART prophylaxis only during L&D/PNC	0
1.2 Number of delivery mothers with unknown HIV status	8520
1.2.1 Number of delivery mothers with unknown HIV status who received an HIV test and received results	2241
1.2.1.1 Number of tested HIV positive	8
1.2.1.1.1 Number of tested HIV positive who received ARV prophylaxis during L&D/PNC	5
2. Number of HIV-infected pregnant women delivered at referral hospitals	107
3. Number of HIV-infected pregnant women delivered at HCs	6
4. Number of HIV-exposed babies born to HIV positive mothers	113
4.1 Number of still births/neonatal deaths (in maternity wards)	2
5. Number of HIV-exposed babies who received a 6 week supply of ARV prophylaxis	106
6. Number of HIV-infected pregnant women who received infant feeding counseling	107
6.1 Number of intending to breastfeed	49
6.2 Number of intending to replacement feed	58
2. Post Natal Care	
7. Number of mothers who received at least 2 PNC visits including HIV positive mothers	40657

Part 3: OI/ART

1. Safe Abortion

1. Number of HIV-infected PWs who reported having an abortion	4
1.1 Number of HIV-infected PWs who reported having an abortion	1

2. Mothers' Treatment

2. Number of HIV-infected mothers who received ART for their own health (ART cohort)	158
