PMTCT-LR Quarterly Report

Quarter: Q4 - 2013

Part 1: Information about ANC	Total 80 Sites
1. Blood Testing for Pregnant Women	
1. Number of ANC 1	81721
1.1 Number of ANC1 at ANC facilities	79352
1.2 Number of ANC1 at outreach	2369
2. Number of ANC 4	55097
3. Number of known HIV status during this pregnancy	1427
3.1 Number of women presenting at ANC who already received an HIV-negative result during this pregnancy	1330
3.2 Number of HIV(+) pregnant women referred from other services(public and private) to ANCs	97
4. Number of samples of pregnant women of unknown HIV status, sent to lab	55975
4.1 Number of samples HIV positive	67
4.2 Number of pregnant women who received their test results	53420
4.2.1 Number received HIV-positive results	63
5. Number of pregnant women who received rapid syphilis screening	31216
5.1 Number of screened positive(Rapid Test)	17
5.1.1 Number of PW screened positive referred for an RPR confirmatory test	16
5.1.1.1 Number of tested RPR positive	4
5.1.1.1.1 Number of PW who started syphilis treatment	3
6. Number of pregnant women tested for anemia	8797
6.1 Number of HIV positive PW tested for anemia	25
7. Number of pregnant women tested for proteinuria	12368
7.1 Number of HIV positive PW tested for proteinuria	36
8. Number of pregnant women tested for glucose	11885
8.1 Number of HIV positive PW tested for glucose	29
2. Blood Testing of Partners/Husband of PW at ANC services	
9. Number of partners/husbands of PWs tested for HIV	12847
9.1 Number of male partners/husbands received results	12260
9.1.1 Number of tested HIV positive	11
10. Number of male partners/husbands of HIV-infected PWs tested for HIV	7
10.1 Number of who received results	5
10.1.1 Number of tested HIV positive	2

3. Blood Testing for General Population	
11. Number of TB patients tested for HIV (sample refer to lab)	3830
12. Number of TB patients received their test results	3699
12.1 Number of tested positive	15
13. Number of STD patients tested for HIV (sample refer to lab)	659
14. Number of STD patients received their test results	633
14.1 Number of tested positive	1
15. Number of other clients tested for HIV (sample refer to lab)	14091
16. Number of other clients received their test results	13976
16.1 Number of tested positive	106
4. Birth Spacing	
17. Number of HIV-infected women received one modern contraceptive method (current users)	183
17.1 Number of HIV-infected mothers who start a modern contraceptive method at 6 weeks after birth	8
Part 2: Delivery and Post Partum Care	
1. Delivery Treatment	
1. Number of delivery mothers at health facilities	66914
1.1 Number of delivery mothers with known HIV status	55607
1.1.1 Number of known HIV positive	195
1.1.1.1 Number of HIV positive mothers at delivery who reported receiving ART for their own health	165
1.1.1.2 Number of HIV positive mothers at delivery who reported receiving triple ART prophylaxis during pregnancy	25
1.1.1.3 Number of positive mothers at delivery who received ART prophylaxis only during L&D/PNC	2
1.2 Number of delivery mothers with unknown HIV status	11307
1.2.1 Number of delivery mothers with unknown HIV status who received an HIV test and received results	2890
1.2.1.1 Number of tested HIV positive	10
1.2.1.1.1 Number of tested HIV positive who received ARV prophylaxis during L&D/PNC	4
2. Number of HIV-infected pregnant women delivered at referral hospitals	199
3. Number of HIV-infected pregnant women delivered at HCs	4
4. Number of HIV-exposed babies born to HIV positive mothers	203
4.1 Number of still births/neonatal deaths (in maternity wards)	1
5. Number of HIV-exposed babies who received a 6 week supply of ARV prophylaxis	199
6. Number of HIV-infected pregnant women who received infant feeding counseling	202
6.1 Number of intending to breastfeed	72
6.2 Number of intending to replacement feed	130
2. Post Natal Care	
7. Number of mothers who received at least 2 PNC visits including HIV positive mothers	54798

Part 3: OI/ART	
1. Safe Abortion	
1. Number of HIV-infected PWs who reported having an abortion	6
1.1 Number of HIV-infected PWs who reported having an abortion	3
2. Mothers Treatment	
2. Number of HIV-infected mothers who received ART for their own health (ART cohort)	137
3. Number of HIV-infected mothers who started ARV prophylaxis (pre-ART cohort)	11
3. Exposed infants	
4. Number of infants born to HIV-infected mothers reported receiving 6 week supply of daily NVP or AZT suspension	0
5. Number of infants born to HIV-infected mothers started on CTX prophylaxis within two months of birth	154
