

Training on Recording Partner Notification Tracing and Testing (PNTT) data in ART database.

30 March-01 April 2022

The National Center for HIV/AIDS, Dermatology and STD (NCHADS) is conducting a training on recording PNTT data in ART database in Kampot province which is financial supported by US-CDC. This training will be running for full 3 days with the objectives to instruct how to record, manage and entry PNTT data in ART database, improve and strengthen the PNTT data recording and orientate about new PNTT recording and reporting form.

This training was participated by Representative of NCHADS, Deputy Director of Provincial Health Department, EpiC-FHI360 and participants from province including provincial data management officer, data entry clerk and PNTT recorder in ART services from 7 provinces such as Kandal, Pursat, Kampong Cham, Kampong Spue, Preah Sihanouk, Battambang and Prey Veng.

This event was starting from the informative remark from Dr. Tan Chheng, deputy director of Kampot PHD, and opening ceremony by Dr. Kaeoun Chettra, Vice-chief of Technical Bureau NCHADS.
