

Training on Recording Partner Notification Tracing and Testing (PNTT) data in ART database, Kampong Cham province

04-06 April 2022

The National Center for HIV/AIDS, Dermatology and STD (NCHADS) is conducting a training on recording PNTT data in ART database in Kampong Cham province which is financial supported by US-CDC. This training will be running for full 3 days with the objectives to instruct how to record, manage and entry PNTT data in ART database, improve and strengthen the PNTT data recording and orientate about new PNTT recording and reporting form.

This training was participated by Representative of NCHADS, Deputy Director of Provincial Health Department, EpiC-FHI360 and participants from province including provincial data management officer, data entry clerk and PNTT recorder in ART services from 5 provinces such as Banteaymeanchey, Siem Reap, Kampong Thom, Kampot and Phnom Penh.

This event was starting from the informative remark from Dr. Seng Sopharun, deputy director of Kampong Cham PHD, and opening remark by Dr. Samrith Sovannarith, Deputy Director of NCHADS.
